

A. Investigation

- Geotechnical Investigation (Land & Marine)
- Mineral Exploration
- Geophysical Survey (ERT/SRT)
- Non-Destructive Testing (NDT)
- GI Instrumentation
- Geological Survey
- Drilling & Grouting
- NABL Lab
- Material Testing

B. Survey

- Drone Survey
- Topographical Survey
- Detail Engineering Survey
- Contour Survey
- Transmission Line Survey
- Railway Engineering Survey
- Command Survey
- Industrial Survey
- Cadastral Survey
- DGPS Survey
- GIS Mapping
- Hiring of equipment's

About Us

“SDS SURVEYORS AND ENGINEERS PVT LTD” (SDSEPL) is a growing reputed engineering services establishment in providing its services for Topographical Survey, DGPS & GIS Mapping, Geotechnical Investigation, Mineral Exploration, Geophysical Survey, Geological Survey, NDT, GI Instrumentation and allied works to arena of construction world, Infrastructure and Engineering Industry. SDS ensures smooth operations and on-time deliveries of our agreements by undertaking activities with assurance, accurate, refined and budgeted in-depth solutions, crucial to Domain applications required by Design Engineers for optimum design of relevant structures.

Our services comprises of Topographical Survey, Drone Survey, Geotechnical Investigation, Core Drilling, Geophysical Survey, Geological Survey, GI Instrumentation, Load testing, NDT, NABL Lab Testing, Drilling and Grouting, Guniting, on-site technical assistance, hiring of survey equipment's to allied works, dealing PAN INDIA.

Our Vision & Mission

To become a professionally leading firm in providing services in the field of Survey, Geotechnical Investigation and Mineral Exploration. Also, to provide reliable services with quality and cost-effective manner in domain backed by testing and monitoring.

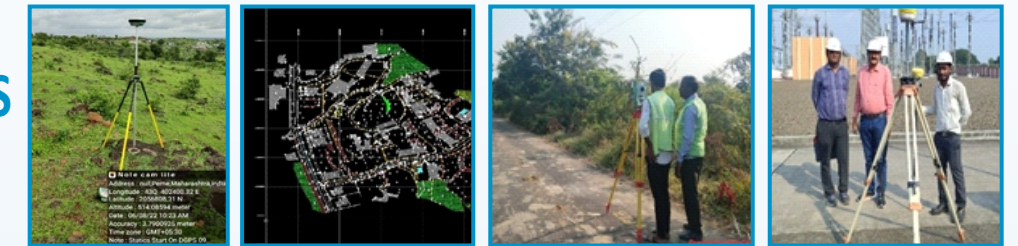

Our Infrastructure

Hydraulic Rigs, Mechanical Rigs, Drone, DGPS, Total Station, RTK and all allied equipment's with soil and rock testing laboratory at Pune.

GEOTECHNICAL INVESTIGATION
